

Call for Tutorials IEEE ICECS 2024

The Organizing Committee invites proposals for tutorials to be conducted on ICECS 2024, held at Nancy, FR.

Tutorials are an integral function of ICECS where instructors have the opportunity to share their expertise on a specific field/research with fellow researchers and those who wish to discover said field/research. We are soliciting proposals for topics of academic and industrial applications interests. These topics may be established or it may be emerging – and with profound and/or new insights thereto, that is best articulated by means of an oral presentation.

We encourage tutorial proposals submissions, including but not limited to:

- Analog / Mixed-Signal / RF Circuits
- Bio-Medical and Bio-Inspired Circuits and Systems
- Circuits and Systems for AI
- EDA, Test and Reliability
- Digital Circuits and Systems
- Energy Harvesting and Power Management
- Emerging technologies and technology Trend

- Linear and Non-Linear Circuits and Systems
- Low-Power and Low-Voltage Design
- Micro- and embedded systems
- Neural Networks and Neuromorphic Circuits
- Sensors and Sensing Systems
- Signal Processing, Image and Video
- VLSI Systems and Applications

Proposals, prepared in a PDF file, should include the following information:

Title of the tutorial Area of the tutorial (refer to the list above) 300 Word Abstract (for inclusion in registration materials) Keywords Format of tutorial: 1:30 to 2:00 Instructor(s) and their credentials (2-page CV for each instructor) Previous offerings of tutorials, if any Learning objectives Target audience and prerequisite knowledge of audience Full description (1-2 pages to be used for evaluation)

Important Dates:

Tutorial proposals due: 12 July, 2024 Notification of acceptance: 5 August, 2024 Complete Set of Tutorial Slides: 4 October, 2024

Please submit proposals by emails to the Tutorial Co-chairs:
